

Education:

I was born on the 16th of August 1968 in Palmanova (UD), Italy.

I have an university degree in Physics, and finished my thesis ("*Numerical simulations of the origin of the structures in the large scale universe*") on february 1994, at Padua University (PD).

In november 1996 I began a contract with the "Centro Servizi Agrometeorologici per il Friuli Venezia Giulia" (CSA), as researcher of the "Thunderstorm and Hail Prevention and Research Center", under the scientific direction of dr. [Griffith Morgan](#), and started my study in Meteorology. On first July 2000 CSA becomed the "Osservatorio Meteorologico Regionale" dell'ARPA Friuli Venezia Giulia ([OSMER-ARPA](#)).

Courses and Conferences:

- Fourth [European Conference on Severe Storms](#), Trieste (I) 10-14 September 2007.
- [EUMETSAT Training Workshop on Interpretation of Satellite Images/Products of Convective Storms](#), Trieste (I) 5-7 September 2007.
- From October 2005 to December 2006 I was responsible of the thesis done by Luca Tavian (Dep. of Mathematics of the Udine University) on min-max temperature downscaling.
- European Meteorological Society ["Annual Meeting" + ECAC + FORALPS meeting](#), Lubiana (SLO) 5-6 september 2006.
- American Meteorological Society ["Annual Meeting 2006"](#), Atlanta (Georgia, USA) 30 january - 2 february 2006.
- Short Course on ["Artificial Intelligence Applications to Environmental Science"](#), Atlanta (Georgia, USA) 28-29 january 2006.
- Meteorisk seminar on ["Meteorisk Forecasting: merging theory and practice"](#), Visco (UD, I) 7-8 november 2005.
- CISM Advanced School on ["Atmospheric Convection: Research and Operational Forecasting Aspects"](#), Udine (I) 18-22 july 2005.
- ZAMG Workshop on the use of the MAVIS meteorological software, Vienna (A) 3 june 2005.
- Third [Short-range numerical weather prediction workshop on Statistical Adaptation](#), Vienna (A) 1-2 june 2005.
- Third [European Conference on Severe Storms](#), Leon (ES) 9-12 november 2004.
- [Summer School on Mountain Meteorology "Orographic Effects on Precipitation"](#), Trento (I) 26-30 july 2004.
- I held 6 hours of [lessons on thermodynamic and instability at Udine University](#), during the Course on "Computational Meteorology" 29-30 january 2004.
- I held 10 hours of [lessons on thermodynamic and instability at Udine University](#), during the Course on "Applied Meteorology" 17-28 february 2003.
- OSMER/ARPA Seminar on Orographic Precipitations with R. Rotunno and R. Steinacker, 18-20

september 2002 (local organizer).

- Second [*European Conference on Severe Storms*](#), Prague (CZ) 26-30 august 2002.
- [*Grand Combin Summer School on "Physics and Predictability of Rainfall and Floods"*](#), Saint-Oyen (Aosta, I) 26/06 - 5/07 2002.
- First [*Short-range numerical weather prediction workshop on Statistical Adaptation*](#), Vienna (A) 4-6 december 2000.
- [*International MAP Meeting 2000*](#) in Bohinjka Bistrica (SLO) 23-26 may 2000.
- First [*Conference on European Tornadoes and Severe Storms*](#), Toulouse (F), 1-4 february 2000.
- Seventh *ALADIN Workshop*, Lubiana (SLO) 18-19 november 1999.
- [*NCAR Summer Colloquium on "Ice formation in the Atmosphere"*](#), Boulder Colorado (USA) 13/06 - 25/07 1999.
- [*ICTP Summer Colloquium on "The effect of topography on the atmospheric circulation"*](#), Trieste (Italy) 08-26/06 1998.
- I made a one month long "training visit" to some important Meteorological Centers of USA ([*NSSL*](#), [*SPC*](#) and [*Oklahoma State University*](#) in Norman OK and [*NCAR*](#) in Boulder CO) from 26/04 to 15/05 1998.
- *EUMETSAT course on Satellite Meteorology*, Lubiana (SLO) 22-23 october 1997.
